Summary

Senior Product Designer with 16+ years designing B2B SaaS, CRM, analytics and AI-assisted products. Led end-to-end design of SugarAI's first AI report builder, cutting time to a complete report from 15–18 minutes to under 1.5 minutes in testing, and shipped platform features used by 2,000+ organizations. Partners closely with product and engineering from research and discovery through prototyping, design systems and release.

Skills

Design: Product design, UX/UI, interaction design, information architecture, user research, usability testing, wireframing, prototyping, user journeys, design systems, data visualization, accessibility (WCAG), AI/LLM product design, mentoring

Tools: Figma, FigJam, Adobe Creative Suite, HTML/CSS, Jira, Confluence, Claude, ChatGPT, Codex

Experience

Lead UX Designer | SugarAI (formerly SugarCRM) | Remote | Apr 2024 – Jul 2026

- Led end-to-end design of SugarAI's first AI report builder, turning plain-language questions into editable reports with live previews and version history. In moderated testing, reps' average time to a complete answer fell from 15–18 minutes to 1 min 20 sec, and setup went from 7 steps to 3.
- Redesigned mobile CRM around customer visits after interviewing 5 field sales reps, combining visit prep, AI-assisted answers, dictated notes and a review step. In a field test, CRM entry fell from 90–120 minutes per visit to 15.
- Designed platform-wide conditional formatting, rolled out to 2,000+ organizations. Custom-color support tickets dropped from 15–20 a month to zero within two months; all default color combinations passed WCAG AA.
- Led two company-wide brand overhauls that unified the UI across Sugar's five-product stack, acquired tools and new features, rolled out to 3,000+ customers.
- Onboarded and mentored junior, mid-level and senior designers through weekly check-ins and design critiques, integrating new hires into sprint teams in under a month.

Senior UX Designer | SugarCRM | Remote | Nov 2019 – Apr 2024

- Led the responsive redesign of Flexible Dashboards so sales reps, leaders and account managers could arrange, resize and share content around their workflows; rolled out to 2,000+ customers.
- Led the chart-library redesign during the D3-to-Chart.js migration, standardizing chart styles and interactions.
- Evolved the UX component library through three UI theme changes, keeping components aligned with platform standards.

Senior UX Designer | Hitachi Vantara / Pentaho | Orlando, FL | Sep 2013 – Nov 2019

- Led research and design, mentoring a junior designer, for a ride-maintenance tool for Space Mountain at Walt Disney World, built for a 22-engineer team. In the pilot, an engineer diagnosed a fault, requested parts and scheduled an overnight repair within an hour, work that previously began only after a breakdown.
- Modernized the Spoon visual workflow interface of Pentaho Data Integration (PDI), an ETL tool used by data engineers and analytics teams, with a Bootstrap 4 design system.

Earlier Experience

UX Designer | Avectra / Abila | Oct 2010 – Sep 2013. Designed core NetForum Pro and Enterprise experiences.

Visual Designer | Metra Electronics | Oct 2008 – Oct 2010. Catalogs, packaging and CES/SEMA trade-show displays.

Independent Work

Founder & Designer | Puroresu Project (puroresuproject.com) | Jul 2026 – Present

- Designed and launched an archive of 72 years of Japanese pro wrestling history for international fans: 155 wrestler profiles, 126 curated matches and 48 venue histories on one shared content system, with guided stories, lineage maps and an integrated Shopify store.
- Reached 8,900+ site users and 1M+ Instagram views (5,400 new followers) within the first four months.

Education

B.A., Graphic Design and Digital Media | University of Central Florida

A.A., Graphic Design | Seminole Community College
